Target Tracker

Our parent target tracker link has now gone live. Target tracker is the system we use to assess and monitor the children's progress throughout their time in our Early Years setting. You will now be able to see your child's online profile and you should have received a Parentmail message earlier in the week informing you of how to access target tracker. At Bessemer we have an observation cycle which means once a half term your child will have a week of observations carried out on them. During the rest of the time we will still be supporting your child's learning and development but we will not be formally recording this.

HOME LEARNING

Sound of the week

Next week our sound of the week will be the sound 'p', please could you work with your child to find something in your house that starts with the sound 'p' and send a picture to your class teacher.
